

A *Brighter* Future

MQ

Mental health
research

3.9% of mental health research funding goes towards prevention

Funding for mental health research has *remained flat* over the 10-year period 2008-2017

£19 spent on mental health research per person affected

2.7% of mental health research is funded by charity
compared to **68%** of cancer research

25x

more is spent on
cancer research
than mental
health research

The sector average for BAME participation in medical research is ~~5.7%~~ of all volunteers. Through our Participate platform we have increased this by ~~43%~~ above sector average.

75%

of mental health problems develop before the age of 18

... but only 26% of mental health research focuses on young people

Growing *Talent*

MQ will invest in inspiring new talent and expand the capability and quality of research

MQ
Transforming
mental health
through research

Investing in *Impact*

MQ will invest in research programmes that drive innovation in policy and practice and challenge the status quo

Challenging *Inequalities*

**MQ will invest in research that
closes the inequalities gap**

Engaging *People*

We want to see the number of people actively supporting mental health research increase three fold, as well as engage a diverse group of individuals to take part in and inform our research projects

Methodology

Data Driven Science

**Public and Patient Involvement
and Engagement**

Sustainable Investment

Collaboration and Partnership
